Director

Director I have examined the general statement of revenue and expenditures, the cash statement and statement of assets and verified the same with the accounts and vouchers and have found them to be correct. The statements were prepared in accordance with generally accepted accounting principles and are presented on a basis consistent with that of the preceeding year. I am not a director in the association, and I do not hold any office herein othre than the auditor.

Auditor

## Music Director Report March 2018

Overall, the music program has seen the greatest improvement with the purchase of the new sound system. It has made it so much easier to lead music knowing that everything works correctly and that we have the ability to adjust sound quality with a great degree of control. It is exciting to have new members added to play different instruments as well.

Our goal with song choice is to continually incorporate fresh music while still maintaining a good balance of familiar praise songs. We are working on making a comprehensive list of current songs we sing so that as we grow, multiple music teams will choose from the same list of songs and this will create consistency. Ultimately all new songs are approved by Pastor Dave.

In the future we hope to incorporate occasional worship and praise evenings to the church calendar, as a way of outreach as well as building up of fellow believers. We look forward to seeing where God leads and expands our group.

Submitted by: Mary Cowan

I have been with Rosetown Community Church since September of 2017. We have implemented a number of little changes over the last number of months, this is an effort at changing the overall experience of church. We have worked on items like improving the sound system, computer and music software and music style. Although these things seem like trivial things, they must function properly in order for us to be prepared for growth. Although we are still a small congregation, we need to be ready for growth. We also, need to have a desire to do everything with excellence.

Beyond how our "worship experience" happens, we want consistency in music, message and thought. We want to be Christ-Centred (not self-centred, not what bugs me or what I don't like but really focused on Father), on His goodness, building our faith, journeying towards Christ. We want to live our lives by loving God and loving people. Intentional living! We want church to be a welcoming place for anyone to come and experience the love of God.

We also started dealing with background items like organization within the church, developing a website and social media. These are the types of things that show people that we care. We hope to add more technology pieces and changes in the coming months.

As we move forward into 2018, we hope to incorporate occasional music nights (Saskatchewan Soakers) which will bring opportunities for those who want to soak in His presence, more outreach opportunities and just more time together as a church. My family and I are so thankful for you all of you, for your love, your kindness and how you have welcomed our entire family.
